SUMMARY

CSE undergraduate with hands-on experience building distributed systems, backend services, and developer tooling. Solved **500+ problems** on LeetCode (contest rating **1900+**). Contributed accepted patches to Chromium, the D package manager and more. Passionate about large-scale computing, scalability, and solving ambiguous problems with clean, measurable solutions.

PROJECTS

- Szare: Local File Sharing App** (*Gin, Next.js*) Github
- Engineered Go-based concurrent transfer engine supporting **50+ parallel file streams with zero-copy I/O**, achieving **100+ MB/s throughput** on LAN.
 - Designed **self-hosted architecture eliminating third-party dependencies**, reducing external attack surface by **100%**.
 - Built responsive UI enabling **1–10 GB file uploads per session** with resumable transfer support.
- Titly: URL Shortener** (*Gin, SvelteKit, Redis, Docker*) Github
- Built scalable URL resolution service with Redis LRU cache, **reducing database load by 70%** and achieving sub-**5 ms** latency at scale.
 - Containerized services using Docker, cutting setup time from **30 min to under 3 min** per deployment.
- DevIDE: Online Code Editor** (*Next.js, Convex*) Github
- Implemented indexed search and Redis caching, improving project retrieval performance by **60%**.
 - Designed user profile system storing **10k+ code execution logs** with complete history tracking.

OPEN SOURCE EXPERIENCE

- Open Source Contributor – Chromium** (C++, TypeScript, Java, CSS)
- Refactored Android install flow by extracting WebAPK, Add-to-Homescreen, and Universal Install handling from ChromeActivity into a new AppInstallMenuHandler module improving modularity and maintainability. CL #7458172
 - Replaced deprecated `base::Time` sentinel with `base::Time::Max()` for clearer and safer time-range handling. CL #7206813
 - Improved unreadable console output selection text color in DevTools by enhancing selection contrast for dark backgrounds. CL #7109459
- Open Source Contributor – DUB (D Package Manager)** (D)
- Auto-create missing `workingDirectory` before `dub run` execution. PR #3097
 - Fixed VisualD generator to use the selected compiler instead of hardcoded `dmd`. PR #3094
 - Corrected `ReaderException` to report actual YAML line and column. PR #3100

TECHNICAL SKILLS

- Languages:** TypeScript, C++, Go, Rust, Python, C, D, Java, Bash
- Frameworks and Libraries:** React.js, React Native, Next.js, SvelteKit, Express.js, Gin, FastAPI
- Databases and ORMs:** PostgreSQL, MongoDB, Redis, SQLite, Prisma, Drizzle
- Concepts:** Distributed Systems, Scalability, API Design, Caching, Containerization, System Design
- Tools and Technologies:** Linux, Docker, Kubernetes, GraphQL, Git, AWS (EC2, Lambda, S3), CI/CD

EDUCATION

CV Raman Global University Bhubaneswar, India
Bachelor of Technology in Computer Science and Engineering (2023 – 2027) — CGPA: 8.47
