SUMMARY

CSE student experience in building React/Next.js frontends, scalable backend APIs, and distributed infrastructure. Contributor to large-scale open-source projects (Chromium, DUB). Seeking a software engineering role to ship full-stack features fast using modern engineering and AI-assisted workflows.

EXPERIENCE

Open Source Contributor – Chromium (C++, TypeScript, Java, CSS)

- Refactored Android install flow by extracting WebAPK, Add-to-Homescreen, and Universal Install handling from ChromeActivity into a new AppInstallMenuHandler module improving modularity and maintainability. CL #7458172
- Replaced deprecated `base::Time` sentinel with `base::Time::Max()` for clearer and safer time-range handling. CL #7206813
- Improved unreadable console output selection text color in DevTools by enhancing selection contrast for dark backgrounds. CL #7109459

Open Source Contributor – DUB (D Package Manager) (D)

- Auto-create missing `workingDirectory` before `dub run` execution. PR #3097
- Fixed VisualD generator to use the selected compiler instead of hardcoded `dmd`. PR #3094
- Corrected `ReaderException` to report actual YAML line and column. PR #3100

PROJECTS

Weezy: Workflow Orchestration System (TypeScript, GraphQL, BullMQ, Redis, PostgreSQL) Github

- Architected a **DAG-based distributed workflow engine** with deterministic execution using BullMQ + Redis, supporting **horizontal scalability** across concurrent workers.
- Built **GraphQL API** over PostgreSQL via Prisma for real-time workflow monitoring and distributed user activity tracking.
- Designed modular node architecture with clean separation between orchestration and execution layers, enabling extensible third-party integrations.

DevIDE: Online Code Editor (Next.js, Convex) Github

- Built customizable multi-theme UI and integrated **Stripe payment flow**, processing **100+ test transactions**.
- Implemented indexed search and Redis caching, improving project retrieval performance by **60%**.
- Designed user profile system storing **10k+ code execution logs** with complete history tracking.

ACHIEVEMENTS

- Solved **600+** problems on LeetCode across various topics.
- Knight at LeetCode with contest rating of **1950+**.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, C++, Go, Python, Rust, Java
- **Frameworks and Libraries:** React.js, Next.js, SvelteKit, Express.js, Gin, FastAPI
- **Databases and ORMs:** PostgreSQL, DynamoDB, Redis, MongoDB, SQLite, Prisma
- **Tools:** AWS (Lambda, S3, DynamoDB), Docker, Kubernetes, Git, CI/CD, Linux, Postman
- **Concepts:** Microservices, REST APIs, Domain-Driven Design, Distributed Systems, System Design

EDUCATION

CV Raman Global University

Bachelor of Technology in Computer Science and Engineering

Bhubaneswar, India

(2023 – 2027) — CGPA: 8.64
